# Maths Support Service

## Overview

- University-wide service since 2006.
- The service supports all levels of study with particular emphasis on supporting students making the transition to University.
- Approximately 2000 drop-in visits a year, with Maths, Bioscience, and Business the largest users of the service.

# Maths Support Service

# Maths Support Service

## Funding

**2006:** Secured funding from University L&T to roll out Maths Support across Cardiff University.

**2008:** Support from University L&T to secure funding for an additional year.

**2009-2015:** Central funding from the University.

## Current Model

# Maths Support Service

## Proposed Future Model

# Maths Support Service

## Future Considerations

- Will being part of the central support service make Maths Support more accessible to a wider audience?
- What further funding will be available to extend beyond the existing provision?
- What if the fee system changes?
