

Field excursion to the Severn Valley Railway Landscape and Geology Trail

Saturday 4th September 2010

Meet at Kidderminster Town Station, Comberton Hill, DY10 1QX at 09.40
Follow the brown Steam Railway signs from M5 Jn 6

FIELD EXCURSION SUMMARY

This trail runs from Kidderminster to Bridgnorth. Steaming through geological time on the Severn Valley Railway, in the comfort of a railway carriage, you will encounter landscapes created in hot, dry deserts, steamy tropical swamps and exceedingly cold Ice Age conditions. You will see how the underlying rocks and the erosive effects of the river have influenced the landscape.

We plan to arrive at Kidderminster by 09:40 to catch the 10:25 train which arrives at Bridgnorth at 11:34. After a leisurely lunch and maybe a stroll around the town we will return on the 14:45 arriving back at Kidderminster at 15:52. Our party will be allocated a specific coach for the trip.

The group discount price is £12.95 for the return journey.

If you would like to join us, please complete the form below and return to Linda Drummond-Harris, 7 Wessington Park, Calne, Wilts, SN11 0AT together with a cheque made out to Bath Geological Society.

You can order a Trail Guide* (price £1.95) from:
Herefordshire & Worcestershire Earth Heritage Trust
Geological Records Centre
University of Worcester
Henwick Grove
Worcester
WR2 6AJ.
Telephone 01905 855184
www.EarthHeritageTrust.org
eht@worc.ac.uk

*These may also be on sale in the station shop on the day
