

icff 2012

27th - 29th June 2012
University of Bath, United Kingdom

CALL FOR ABSTRACTS

www.icff2012.co.uk

deadline for submissions **extended to 1st October 2011**

The International Society of Fabric Forming and the University of Bath are pleased to announce **icff2012**. Abstracts are now being invited for technical papers and posters whose focus is on the research, development or practical applications of flexible formwork systems.

The conference will build upon the success of the first international conference on flexible formwork, held at the Centre for Architectural Structures Technology, University of Manitoba, Canada, in 2008.

Abstract Submission

Authors of technical papers are requested to submit a short abstract following the instructions available online at www.icff2012.co.uk

Topics

Papers for **icff2012** are being solicited on topics relating to all aspects of flexible formwork:

- Architectural applications;
- Design of membrane formwork systems;
- Reinforcement for flexibly formed structures;
- Concrete durability enhancements using flexible formwork;
- Computational analysis of flexible formwork;
- Optimisation of formwork and design systems;
- Sustainable design using flexible formwork systems.

Programme

The conference begins on 27th June 2012. Keynote lectures by Professor Mark West and Professor Remo Pedreschi precede the technical presentation sessions. An optional fabric formwork workshop led by Professor Mark West make this

conference an event not to be missed. The full programme can be seen at www.icff2012.co.uk

Venue

The University of Bath is situated in a designated UNESCO World Heritage Site. The City of Bath presents some of the finest architectural sights in Europe alongside a diverse collection of museums and attractions. Bath's compact city centre offers is ideal for short visits and there are plenty of activities to enjoy in the surrounding area.

Scientific steering committee

Dr Sigrid Adriaenssens (Princeton University, USA);
Mr Ronnie Araya and Professor M West (CAST, Canada);
Dr. P Block (ETH Zurich, Switzerland);
Dr Alan Chandler (University of East London, UK)
Dr. A Darby, Dr. M Evernden and Professor T Ibell, Dr Paul Shepherd and Dr Chris Williams (University of Bath, UK);
Dr Daniel Lee (Royal Danish Academy of Fine Arts, Denmark);
Professor T Mottram (University of Warwick, UK);
Professor M Otlet (Director, Atkins Ltd);
Professor R Pedreschi (University of Edinburgh, UK);
Professor A. Pronk (Eindhoven University of Technology);
Dr Phil Purnell (University of Leeds, UK)
Professor Jan Wastiels (Vrije Universiteit Brussel).
