

**BELS Bath-Exeter-London-Southampton  
Control Seminar Series**

**11 January 2012, University of Bath, 4 West 1.7**

**Programme**

**11:00** Arrival and coffee

**11:15** Mark Opmeer (Bath) *Negative imaginary functions*

**12:15** Bing Chu (Oxford) *Analysis and control design of sustainable policies for greenhouse gas emissions*

**13:15** Lunch

**14:00** Boumediene Hamzi (Imperial) *Model reduction of nonlinear control systems in reproducing kernel Hilbert space*

**15:00** Mike Jeffrey (Bath) *A problem of stability and determinacy for switched feedback control*

**16:00** End
