

**BELS Bath-Exeter-London-Southampton
Control Seminar Series**

**21 January 2010, University of Southampton
Building 16, Room 2025**

Programme

11:30 Arrival and coffee (Building 1, Room 2025)

11:45 Paolo Rapisarda (Southampton) *Exact identification of lossless and dissipative systems with applications to model reduction from data*

12:30 Lunch (Building 1, Room 2025)

13:15 Heather Burgess (Exeter) *Population modelling of *Montastraea annularis**

14:00 Coffee

14:15 Hartmut Logemann (Bath) *Stabilization of well-posed linear systems by dynamic sampled-data feedback*
