

Control Theory Seminars

Programme, Semester 2, 2008/09

Time: Wednesdays, 11:15 **Venue:** 1 W 3.24

- 11 Feb** M R Opmeer *Resolvent linear systems, part 1*
- 18 Feb** M R Opmeer *Resolvent linear systems, part 2*
- 25 Feb** H Logemann *The delta operator and indirect sampled-data control*
- 04 Mar** E P Ryan *Funnel control with input constraints*
- 11 Mar** C W Guiver *Non-dissipative boundary feedback for beams, part 2*
- 18 Mar** E P Ryan *On gain adaptation in adaptive control*
- 25 Mar** H Logemann *Spectrum determined growth: a genericity result by Renardy*
