

Control Theory Seminars

Programme, Semester 2, 2011/12

Time: Thursdays, 12:15

Venue: 4W 1.7

23 Feb	E Sarkans	<i>ISS results for discrete-time Lure systems, part 1</i>
1 Mar	E Sarkans	<i>ISS results for discrete-time Lure systems, part 2</i>
8 Mar	A R Bill	<i>Krause's concave Perron-Frobenius theory, part 1</i>
15 Mar	A R Bill	<i>Krause's concave Perron-Frobenius theory, part 2</i>
22 Mar	H Logemann	<i>Continuous and discrete-time infinite-dimensional systems in the frequency domain: a comparison, part 1</i>
29 Mar	H Logemann	<i>Continuous and discrete-time infinite-dimensional systems in the frequency domain: a comparison, part 2</i>
2-13 Apr		NO SEMINARS - EASTER VACATION
19 Apr	M R Opmeer	<i>The linear quadratic optimal control problem and coprime factorizations</i>
26 Apr	E P Ryan	<i>Nonlinear systems: asymptotic behaviour and weak invariance principles</i>
10 May	I Davies	<i>Integral control in the presence of input nonlinearity, input quantizer and output nonlinearity</i>
