All meals will be taken in the 6th Form Club.

Evening programme: it is hoped that all **non-resident delegates** will be able to stay on for dinner and the evening programme.

TSM: Technology for Secondary/College Mathematics

7th RESIDENTIAL TSM WORKSHOP

Tuesday 8th – Thursday 10th July 2008
Oundle School, Peterborough

WELCOME to the 2008 International Residential TSM!

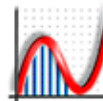

The first TSM day conference at Oundle School was in 1994, and there have been regular TSM events since then, with the first 3-day residential course in 2002. As well as locations throughout the UK, there have been recent TSM training events in Madrid, Johannesburg and Brussels and various schools in Australia and the Far East. The next TSM day for ECIS (European Council of International Schools) takes place in Nice on Thursday 20th November 2008.

TSM is now associated with

- ◆ the Phillips-Exeter conference on Technology and Mathematics (USA)
- ◆ the Technology, Teaching & Learning Mathematics Institute at Knox Grammar School, Sydney (Australia)

These events share the common aim to give mathematics teachers plenty of time to practise skills in the successful use of technology in the classroom.

DOUGLAS BUTLER, Director, iCT Training Centre (Oundle)

Images from TSM-2007:

► WORKSHOP STRAND A: (6 hrs)

A1 - MS Word 2007 and The Internet [Douglas, + Mike W] in IT-1 (Max 20)

Sorting out symbols (Unicode), equations, diagrams in Word; using hyperlinks; importing text, graphics/data from the Web, *Excel* and *Autograph*.

A2 - MS Excel (beginners/intermediate) [Karl, + Simon] in IT-2 (Max 20)

How to get started with Excel, creating sequences, graphs and charts, filling down, formulae and text. Simulations. Karl returns to bring his fresh set of ideas from to add a sparkle to your lessons!

A3 - MS Excel (for Statistics) [Sidney, + J-J] in IT-3 (Max 20)

Excel is a powerful and dynamic tool for investigating, demonstrating and doing mathematics and basic statistics.

A4 - MS Excel (advanced)

[Mike H and David B] in Mod Lang Lab (Max 20)

This workshop will look at some of the advanced features of Excel and how they can be used to create interactive and dynamic resources for use in the classroom or for independent learning.

We will look at features such as conditional formatting, slider bars, buttons and option boxes, named and dynamic ranges, data validation and customization of the interface as well as including an introduction to the Macro recorder and Visual Basic for Applications. There will be plentiful examples and a chance to work on an idea of your own.

A5 - Teaching with CAS (Computer Algebra)

[Marlene and Martin] in S5, Mathematics (Max 20)

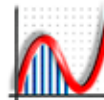

Marlene will use the TI-Nspire (calculator and software) to explore various lesson plans which use CAS to teach junior and senior topics.

A6 - Autograph 3.2 in the Classroom

[Alan, + Mark + Kate] in Arthur Marshall Room, Great Hall (max 30)

Delegates will work through lesson plans using Autograph, in a classroom environment with different technologies available to try: Interactive Whiteboard, Tablet PC, graphics tablet.

► WORKSHOP STRAND B: (6 hrs)

B1 - Autograph 3.2 (beginners/intermediate)

[Douglas + Karl] in IT-1 (max 20)

B2 - Autograph 3.2 (11-16)

[Alan + Mike H] in IT-2 (max 20)

The principle of object selection and the right-click menu; ideas for dynamic lessons on straight lines, coordinate geometry, vectors, transformations, graphs, scatter diagrams, histograms. Lesson plans for KS3-4. Post 16 work as requested.

B3 - Autograph 3.2 for AS / IB

[Martin, + Simon] in IT-3 (max 20)

B4 - Autograph 3.2 for A2 / IB

[Mike W, + Marlene] in Mod Lang (max 20)

- 1D: Probability distributions, hypothesis tests, histograms, central limit theorem
- 2D: Graphs, functions, numerical methods, trigonometry; calculus, coordinate geometry; bivariate data; regression/residuals.
- 3D: lines, planes, vectors; surfaces

B5 - Geometer's Sketchpad 4 / Cabri 2,3

[Kate + Jean-Jacques] in Maths S5/S4, Mathematics (max 20)

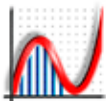

Dynamic geometry (Euclidean plane): constructions; scripts. Applications to circle theorems, transformations; triangles and polygons; recreational mathematics: fractals, tessellations, and an introduction to Cabri 3D.

B6 - Autograph 3.2 in the Classroom

[David + Sidney] in Arthur Marshall Room, Great Hall (max 30)

Delegates will work through lesson plans using Autograph, in a classroom environment with different technologies available to try: Interactive Whiteboard, Tablet PC, graphics tablet.

ACKNOWLEDGEMENTS

This conference could not operate without the enormous help and support of many people, especially those listed here who have given their time to create this event at a particularly busy time of year.

TUTORS:

DAVID BENJAMIN	Folkestone Academy, Kent
DOUGLAS BUTLER	iCT Training Centre, Oundle School, Peterborough
ALAN CATLEY	TyneMath, Newcastle
JEAN-JACQUES DAHAN	IREM et IAM, Toulouse, France
MIKE HADDEN	Freelance mathematical consultant, Hereford
KARL HAYWARD-BRADLEY	Oundle School, Peterborough
KATE MACKRELL	Freelance mathematical consultant, Canada
MARLENE TORRES-SKOUMAL	Vienna International School, Austria

The 2008 TSM RESOURCES CD

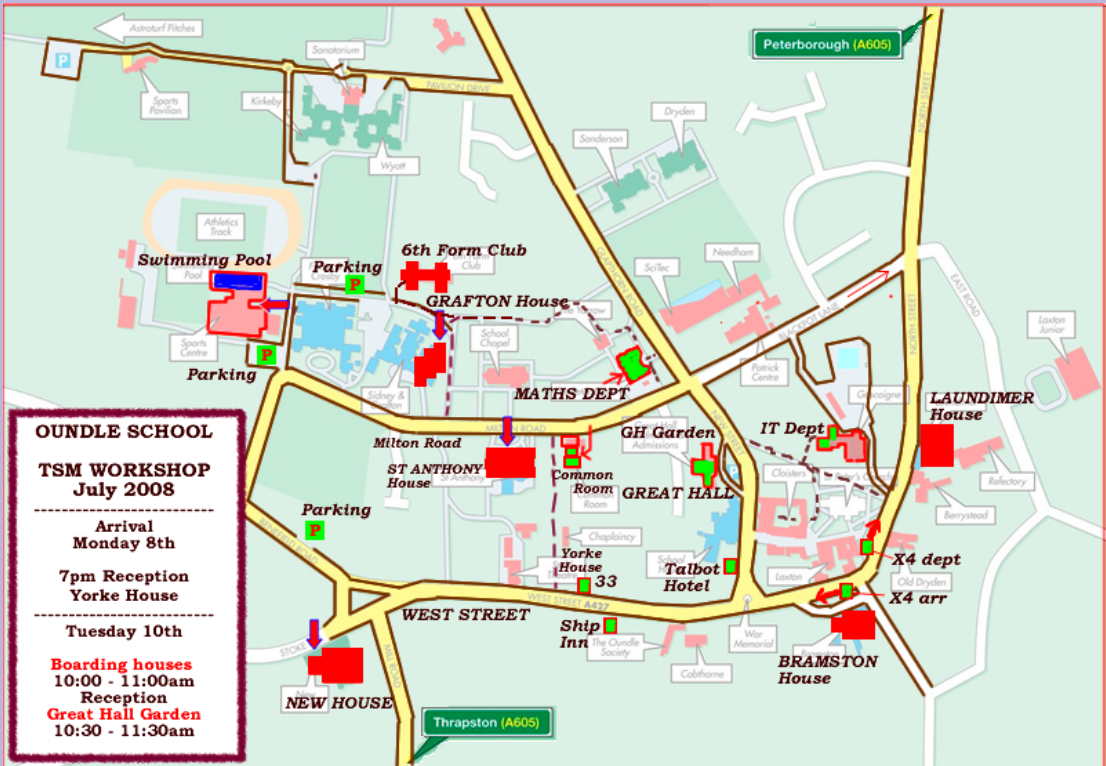

The plan is to expand the TSM Resources CD again with further material that emerges from these workshops, and republish for wide distribution in the Autumn.

The 2007 TSM Resources CD was distributed to ATM and MA members, and to delegates at a number of UK and international conferences throughout the year.

If you are interested in contributing material to the 2008 CD, please make your ideas known to Douglas Butler during the conference.
