

# Introduction to Rhinoceros

# Course Outline

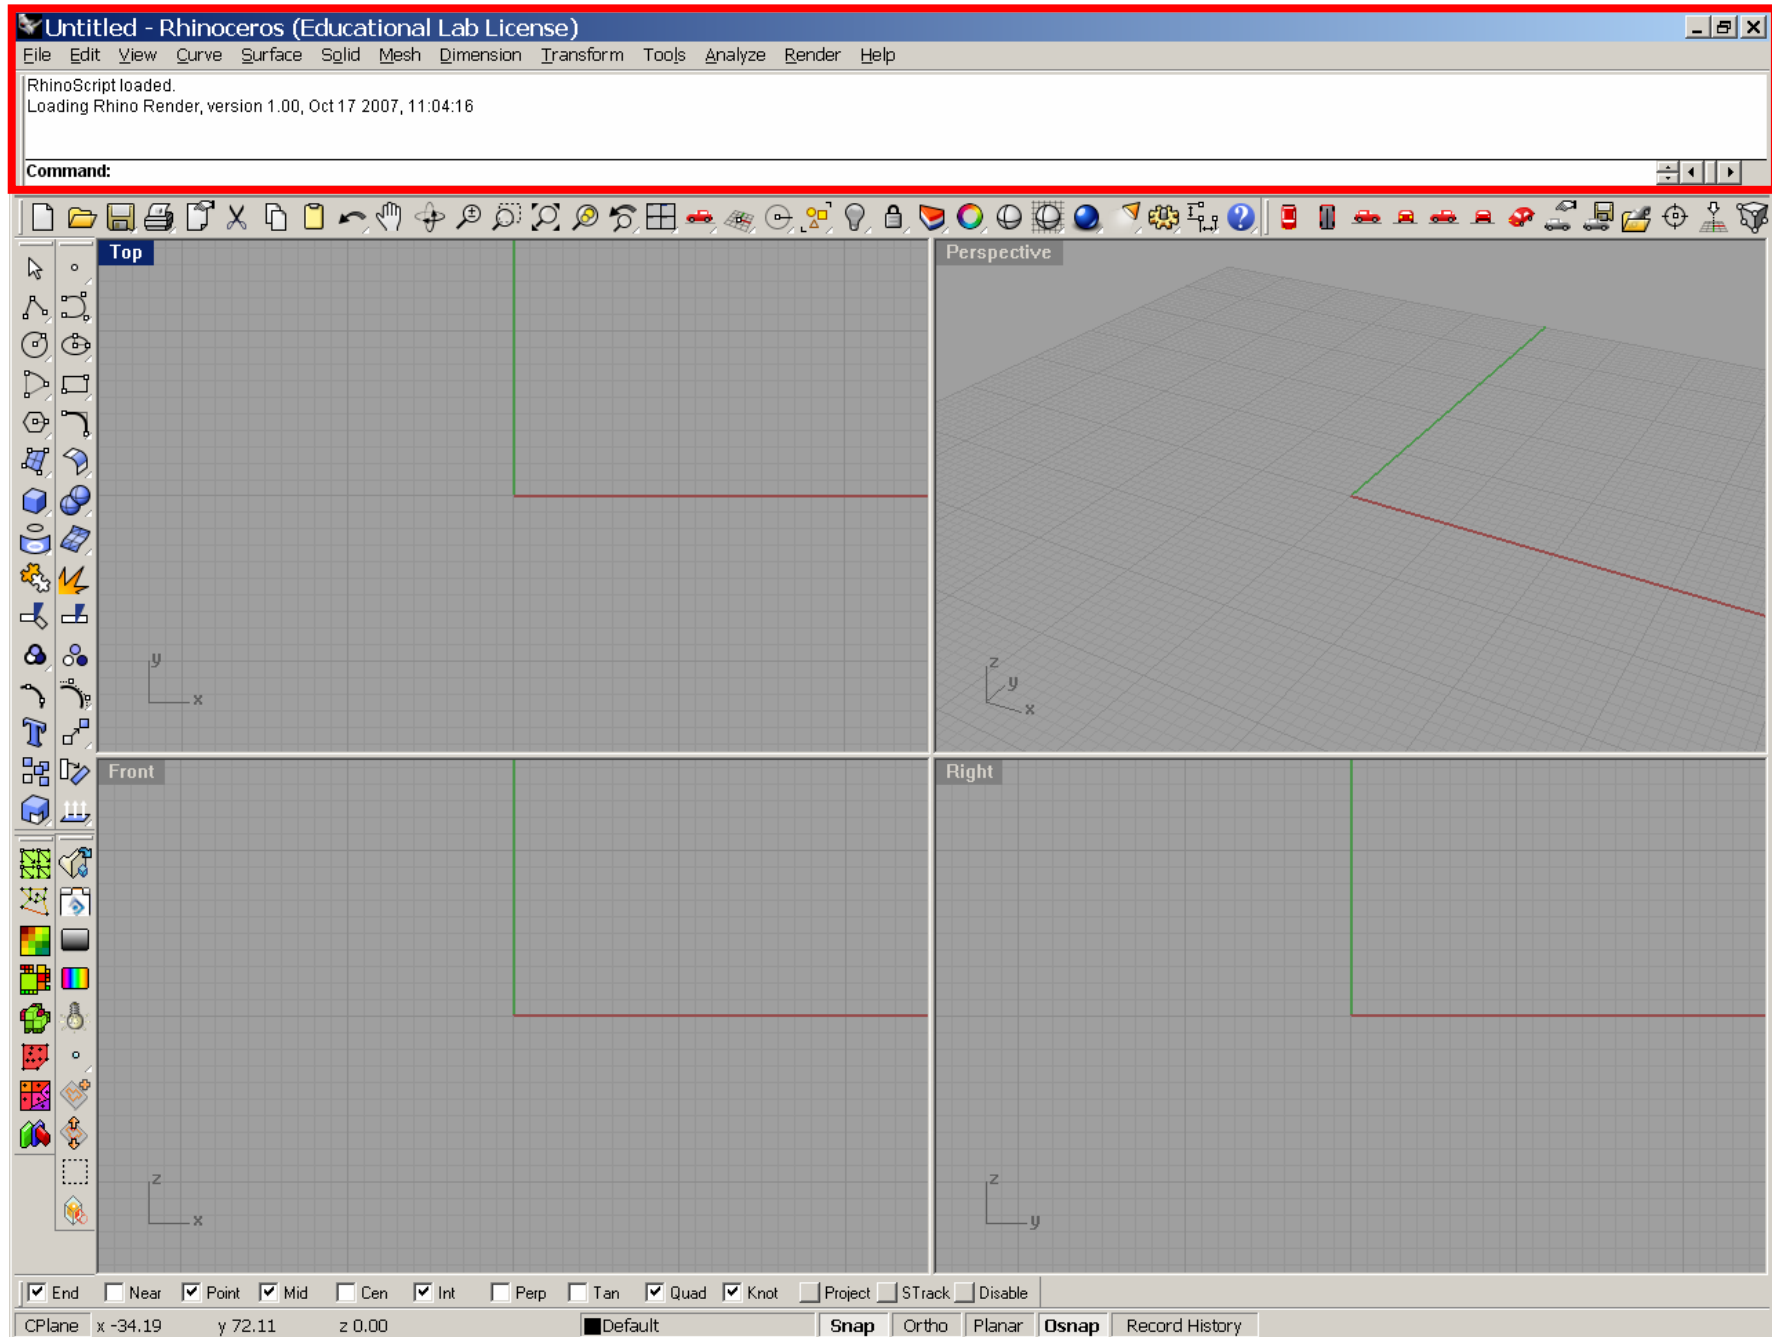

- You are expected to **teach yourself** and the best way to learn is by having a go
- Today we will go through the **basics** to get you started
- You should **play around with it** over the next fortnight
- This introduction will be followed by **another session** where you can also ask questions and discuss problems you have come across
- There are lots of good learning materials available including a user manual and some basic tutorials on [www.rhino3d.com](http://www.rhino3d.com) and [www.rhino3d.tv](http://www.rhino3d.tv)

# Why Use Rhino?

- Interoperability
  - 3D Surface Modelling
  - 3D Solid Modelling
  - Intersections & Trimming
  - Rendering & Animation
  - Scripting & Plug-Ins
- 
- Easy To Learn
  - Cheap
  - Good Support Network
- 
- **Because It Works**
