Control Theory Seminars
Programme, Semester 1, 2011/12

Time: Thursdays, 12:15   Venue: 4 W 1.7

13 Oct	E Sarkans	*On a platoon model*
20 Oct	H Logemann	*Finite-dimensional sampled-data stabilization of infinite-dimensional systems, part 1*
27 Oct	H Logemann	*Finite-dimensional sampled-data stabilization of infinite-dimensional systems, part 2*
03 Nov		NO SEMINAR
10 Nov	M R Opmeer	*Negative imaginary functions revisited from a complex analysis viewpoint*
17 Nov		NO SEMINAR – EPSRC VISIT
24 Nov	E Sarkans	*Higher order input-output models, behaviours and state-space systems*
01 Dec	E P Ryan	*Systems with homogeneous vector fields: stabilization by linear output feedback is sufficient a priori information for adaptive control*
08 Dec	C W Guiver	*A gap metric error bound for positive real balanced truncation*
