BELS (Bath-Exeter-London-Southampton) Control Seminar Series

Room 4W1.7, Department of Mathematical Sciences, University of Bath

Wednesday 11 January 2012

11:00 Arrival and coffee

11:15 Mark Opmeer (Bath): *Negative Imaginary Functions*

12:15 Bing Chu (Oxford): *Analysis and Control Design of Sustainable Policies for Greenhouse Gas Emissions*

13:15 Lunch

14:00 Boumediene Hamzi (Imperial): *Model Reduction of Nonlinear Control Systems in Reproducing Kernel Hilbert Space*

15:00 Mike Jeffrey (Bath): *A problem of stability and determinacy for switched feedback control*

16:00 End
